

Prowise Tessa user terms and conditions

The user acknowledges and understands that every result of Tessa has been created through the use of a third-party tool based on Artificial Intelligence (AI).

In this case, the SDK from OpenAI is used. Reference is made to OpenAI's general terms and conditions.

The use of Tessa is non-binding and the result is always partly the outcome of an effort, instruction or question initiated by the user that results in an outcome based on his or her search or refinements thereof.

The result (here, a created lesson or presentation) is the combination of the user's search query and the underlying data set and OpenAI's algorithm.

The result may only be used in the context of non-profit education.

Although Prowise strives for a relevant and useful result, it can never guarantee its completeness or factual accuracy. The user is responsible for the generated result and should always check it thoroughly before use.

Prowise cannot guarantee that the outcome does not infringe third party rights*, is true and/or complete or is not -offensive, -insulting or -discriminatory in nature.

Prowise does not accept any liability whatsoever regarding the created result.

Version 1 October 2023

Note. Third-party rights can be intellectual property rights but also privacy rights.
